

EQUIPMENT KIT CHECKLIST

SONY XDCAM EX KIT

OPERATION AND SAFETY:

ELECTROSTATIC SENSITIVE DEVICE

The SDHC and SxS Cards, and MxM/SxS Adaptor are sensitive to Electrostatic Discharge (ESD). Take extreme care when handling to protect the contacts from static shock. ESD will destroy SDHC and SxS Cards! Do not store outside of camcorder or storage case!

LINE VOLTAGE THRESHOLD

This camcorder can provide optional 48V Phantom-power for microphones. Do not engage Phantom-power in conjunction with battery-powered microphones! To do so will overload and damage the XLR jack!

PACKING AND STORAGE:

IMPROPERLY OR MESSILY PACKED KITS WILL RESULT IN A FINE!

IMPORTANT: The SDHC Card, MxM/SxS Adaptor, or SxS Cards must be packed in either the camcorder's SxS Card Slots or their storage case. Do not pack loose in the case!

Camcorder is packed right-side up, lens facing to the right. Pack with LCD retracted, screen facing inwards, and lens cap shutter closed to protect lens. Remove any Li-Ion Batteries for packing.

Store the included Røde NTG-2 Shotgun Microphone in its dedicated foam slot. Reattach the 3/8"-M to 5/8" Adapter to the shockmount if it has been removed during use. **DO NOT LOSE THIS PART!!!**

Wrap the XLR Cable in broad, alternating loops, and bind with velcro-strap, fuzzy-side out. Place on top of the foam, towards the center of the case, clear of the lid edges (see photo).

Wrap all Power Cables and Mini USB Cables in a figure-eight pattern, and bind with their velcro strap, fuzzy-side out. Power and USB cables, Li-Ion batteries and AC Adapter should be stored in their clear-vinyl zipper wallet.

PACKING EXAMPLE:

Spare SxS Cards, and/or the MxM/SxS Adaptor with SDHC Card, should be packed in the dedicated hard plastic storage case, and packed in the clear-vinyl zipper wallet; as should the SDHC USB Adaptor.

Pack the clear-vinyl zipper wallet in their foam slot, with the Operating Manual and the detachable Pistol Grip.

The Driver Disc is stored behind the case lid foam.

Do not pinch cables in case lid!

In the event of accident or mishap with this equipment, contact the F&DM Checkout Lab Specialist **IMMEDIATELY**: Phone (831) 459-4062 – Email fdmcheckout@ucsc.edu

IN THE EVENT OF MEDICAL EMERGENCY, DIAL 911.
